

Arun Prasad

VP - World Wide Operations
itaas, Inc.

Arun leads itaas' worldwide Operations. He has been responsible for setting-up and growing itaas's development center in India, and also manages key engagements.

Arun has more than 25 years of experience of working with a proven track record of building high performance, geographically dispersed and culturally diverse teams.

Prior to joining itaas, Mr. Prasad was Vice President of Product & Delivery Services at VSoft Corporation, an Atlanta-based check-processing software company, where he managed client engagement, product development and professional services teams. He also served in India as Principal Research Manager in RDCIS and worked on developing Mathematical Models for industrial processes. He has several international Research publications to his credit.

Arun holds a B.Tech. in Mechanical Engineering from IIT Delhi and an MS in Manufacturing Systems from IIT Kharagpur.
